

*This report is an example of one of the possible options for providing information on foreign companies in the extended business report (historical information is not included in the standard report). Information included in the business report on each request is individual and depends on the legal form of the audited company and the legislation of the country of incorporation, the principles of publicity adopted by each particular company, etc.*

*Based on the above, the information (structure, data volume, etc.) presented in this sample may differ from the information in the business report for a specific customer request.*

*The information provided in this sample is a compilation of data for various legal entities and is not a business report for an existing company. For more information, please refer to appendix 1.*

### 9. MEDIA

Date	Description
16.08.2019	ENERGON now offers IMO Tier III 12-cylinder engines in a power range from 551 to 1213 kW. <a href="http://news/ENERGON">http://news/ENERGON</a>
25.07.2019	In September 2018, after protracted ENERGON agreed with VTB to restructure more than \$ 600 million in loans. <a href="http://news/ENERGON">http://news/ENERGON</a>
13.05.2019	After seven months of testing under the leadership of ENERGON and the University of Applied Sciences. Fresenius, with the support of the Federal Ministry of Transport and Digital Infrastructure in the amount of 1.86 million euros, ended <a href="http://news/ENERGON">http://news/ENERGON</a>

### 10. NOTE

ENERGON GMBH is one of the leading international suppliers of commercial vehicles and transportation solutions in Europe, with factories in Russia, Canada, Turkey, Argentina, France, New Zealand and Sweden.

The company was registered in Germany in 1984. The first truck was launched in 1985, since then the company has been a leader in the commercial vehicle market. According to statistics, approximately every fifth truck in Europe is ENERGON.

The company pays great attention to environmental issues, improves fuel economy (it has been possible to reduce fuel consumption by 45% since 1984), uses materials suitable for sorting and processing in production (about 70% of freight vehicles are recyclable).

Subsidiaries in Russia have established themselves as reliable suppliers.

—

For your convenience, the following formatting is used in the help:

- The black font is used to indicate information from the Register / source in the original language.
- Gray font – possible translation into English
- Historical entries in the tables are highlighted in gray (gray marker).

The report is prepared on the basis of data from state registers and other trusted sources. We include the maximum available information on the audited company (person) in the business report. We comply with the requirements of local legislation for the disclosure (closure) of information on companies. In view of the above, the composition of the business profile may differ from company to company, even if the company is registered in the same country.

The minimum available data set for each country<sup>2</sup> is presented in the table below<sup>3</sup>:
